RAIL UNION HEADS APPROVE STRIKE OF SOUTHERN WORKERS

Endorsement of Strike Vote
Voted by Sixteen Brother-
hoods and Unions

UNION MEN PROTEST CUT IN SCHEDULE OF WAGES

Reduction Ordered When Road
Goes Into Hands of Receiver

CHICAGO, Ill.—Sanction from six-
teen railroad brotherhoods and unions
for a strike of employees of the
Atlantic, Birmingham & Atlantic rail-
road, was dispatched to local repre-
sentatives of the unions following a
midnight conference of heads of or-
ganizations, it was announced Thurs-
day.

It was stated that the sanction will
become effective at a date for con-
sideration to be agreed on by the local
representatives of the organizations
on the southern road.

The sanction endorses a strike vote
completed January 28.

Announcement of the action came
from E. H. Fitzgerald, president of
the Brotherhood of Railway and
Steamship Clerks, Freight Handlers,
Express and Station Employees. Each
national or international president
sent a telegram to the representative
of his craft on the Atlantic, Birmingham
& Atlantic.

The conference included R. M. New-
ell, president of the railway employes'
department of the American Federa-
tion of Labor and it was said that the
projected strike will have the back-
ing of the national federation.

The wage question on the road was
recently brought before the United
States railroad labor board here by
the management of the road but the
board held that the transportation act
had not been fully complied with in-
sofar as preliminary conferences be-
tween employers and employees were
sacred, and remanded the dispute
to that conference.

Shortly after this ruling the road
was placed in the hands of a receiver.
Notice of wage reductions were post-
ed by order of the receiver.

CONGRESS TO PAY SPECIAL TRIBUTE TO CHAMP CLARK

Arrangements Made for Funeral
Services on Saturday
Morning

WASHINGTON.—The house of re-
presentatives today completed arrange-
ments for funeral services in the
house chamber Saturday morning for
its late minority leader and for-
mer speaker, Champ Clark, who died
Wednesday. The services, which will
be held at ten o'clock, will be a
tribute to a career which has been
aid only a few times in the history
of the American congress. The body
of the former speaker will lie in state
in the capitol rotunda before the ser-
vices.

Both houses of congress voted to
appoint committees to attend the fun-
eral as representatives of their re-
spective bodies.

The house committee appointed to
attend the funeral of Mr. Clark is
headed by Speaker Gillett and includes
in addition to the Missouri delegation,
Folney, Midgum, Browne, Wiscon-
sin.

INAUGURAL STAND READY

This is the completed inaugural stand where President Harding takes the oath, March 4. Inset, President-elect Warren G. Harding.

1921 INAUGURAL PRESENTS MARKED CONTRAST TO OTHER YEARS SAY "OLD TIMERS"

REGULAR SIGN OF
SPRING--STRANGER
BATHES IN RIVER

Visitor is Seen Baptizing Him-
self on River Bank Here
Wednesday Afternoon

One of the most peculiar demon-
strations staged by a person, evidently
suddenly deranged, was that of
Frank Bartosh, Chicago, who went to
the "seashore" for a bath between the
hours of one and two here Wednes-
day afternoon. The stranger was
seen baptizing himself, dipping water
from the river in his cup and sprink-
ling it over his head.

There's the story of Frank, as far as
is known, since his coming to La
Crosse. Evidently in possession of a
good sized wad, and in want for a
place to get rid of it, Bartosh wan-
dered into the Krammer Hardware com-
pany where he purchased a \$70 target
rifle. He paid \$50 down, said the
police, later returning with the re-
maining twenty, but did not take
the gun, stating that he had no use
for it at present and would call some
time later. The gun was not called for.

From there, according to the re-
port, Bartosh drifted to the Mader
clothing store in search of new cloth-
ing. Here he purchased a suit of over-
alls, hat, two pairs of shoes and a
mackinaw, the bill amounting to over
\$20, it was said. Asked if he did not
want the clothing wrapped he replied,
"No I might need them right away--
anyway, I have something to wrap
them in," and pulled an American
flag from his pocket, wrapping the
purchased clothes in it.

Go to River

"There is always the river,"
thought Bartosh, after leaving the
clothing store, and waded his way to
the wagon bridge, and later to the
vicinity of Saenger's boat dock, at
the upper end of Riverside park.

Evidently tempted by the water,
but without a bathing suit, Bartosh
immediately proceeded with the busi-
ness of altering his apparel into one
designed for bathing. Removing all
of the clothing from his body, Bartosh
clipped his trousers at the knees
and his coat at the elbows, and pro-
ceeded to climb into his new clothing
when the police arrived on the scene.
His shoes were put in pieces.

Pulverizes Watch

The police discovered that he had
rendered his watch "hors d'combat,"
finding the pieces and case in an at-
tempted pulverized condition.

Bartosh resisted the police when
taken to the station and when an at-
tempt to question him was made
Thursday morning, he refused to talk,
only saying, "I am prisoner here, I
won't talk."

Bartosh will be held at central sta-
tion pending action of the authori-
ties.

CEREMONIES ARE MADE SIMPLE AT HARDING REQUEST

President-elect and Mrs. Hard-
ing to Reach Washington
Late in the Afternoon

WASHINGTON.—President-elect
Harding reached Washington at
an o'clock Thursday afternoon and
went into conference with inaugura-
tion officials on details of tomorrow's
ceremonies. Crowds of inaugural
visitors and home folks gathered about
the union station to greet President-
elect Harding on his arrival from
Madin, Indiana, leaving a misty
main to get a glimpse of the new
president-to-be.

Vice President-elect Calvin
and Mrs. Coolidge were to greet Mr.
and Mrs. Harding and their party in the
residential room of the station and

accompanying them to the New Willard
hotel, where the president-elect and
Mrs. Harding will make their head-
quarters until they go to the white
house Friday afternoon.

A dozen motorcycle policemen were
to accompany the party from the
station while another special detail
of police was stationed at the hotel to
keep a lane open through the crowds
there.

After his arrival Mr. Harding was
to confer with Senator Lodge of Mas-
sachusetts and other senators. Senator
Knox of Pennsylvania, chairman of
the congressional inaugural commit-
tee, also planned to call on him during
the afternoon.

Contrast to Other Years

To Washington residents and "old
timers" the contrast with former days
before-inauguration days was particu-
larly noticeable. They recalled that
in former years "the day before" had
seen the historic thoroughfare lead-
ing from the capitol to the white
house thronged with visitors, hotel
lobbies crowded and sleeping accom-
modations at a premium. Missing were
the long rows of temporary stands
at convenient points along the avenue
from which thousands would view the
"big parade" and cheer the outgoing
and incoming presidents.

"Fair and Cold"

Fair weather with temperatures
close to freezing will prevail here on
inauguration day, special forecasts by
the weather bureau today said.

The sky was overcast Thursday and
fog and hazing of government and
other buildings, dropped, with the
weight of moisture gathered during a
night of slow steady rain.

MASTER BUILDERS SUGGEST MEETINGS ON NEW WAGE RATE

Letter to Knutson Proposes
Meetings of the Committees
of Contractors and Crafts

LETTER SENT FOLLOWING SESSION OF ASSOCIATION

Time and Place to Be Arranged
When Committees are Chosen

A SUGGESTION for meetings of
committees of building workers
and contractors is contained in the
answer of the master builders of La
Crosse to the request of R. G. Knut-
son, union organizer, for a confer-
ence between the builders' and work-
ers' organizations to adjust the ques-
tion of building trade wages for 1921.

The suggestion is contained in a
letter sent Wednesday to Mr. Knut-
son by E. H. Luching, secretary of
the master builders, following a meet-
ing of the contractors Tuesday even-
ing.

The letter follows:

"Dear Sir: Herewith acknowledge
receipt of your letter dated February
21, 1921. Your letter was submitted
to the members of the Master Build-
ers' association Tuesday evening at
their regular meeting.

In answer to your request for a
meeting with the contractors, we
suggest a committee be appointed by
each craft to meet a committee of
contractors of like craft. Time and
place of respective conference to be
arranged acceptable to each commit-
tee upon receipt of notification from
the crafts that such committees have
been appointed.

Very respectfully,
(Signed) "E. H. LUCHING."

The master builders' suggestion fol-
lows a meeting of the building trades
on Monday evening, at which it was
announced the sentiment of the union
was not to oppose discussion of
industrial wages that might be
made possible through changed econ-
omic conditions, and urging a confer-
ence with the employers.

WILSON TO RESUME LAW PRACTICE WITH COLBY AS PARTNER

Firm to Maintain Offices in New
York and Washington Says
Announcement

COMES AS SURPRISE TO GOVERNMENT CIRCLES

President Graduated from Vir-
ginia Law School in 1881

WASHINGTON, D. C.—President
Wilson formally announced Thursday
that he would resume the practice of
law in a partnership with Bainbridge
Colby, the retiring secretary of state.
The firm will maintain offices in New
York and Washington.

The announcement was made of the
white house in the following state-
ment:

"President Wilson made the an-
nouncement today that at the con-
clusion of his term of office, he
would resume the practice of law,
forming a partnership with the secre-
tary of state, Bainbridge Colby."

The firm will have offices in New
York and Washington.

The president's announcement,
wholly unexpected, will result in the
public mind one of his best known
attainments—that of being a law-
yer. He was graduated in law from
the University of Virginia in 1881,
and practiced in Atlanta in 1882 and
1883. In the latter year he went to
Baltimore to take up post-graduate
work at John Hopkins university and
practiced some in the local courts
there.

Mr. Wilson did not remain long at
the practice of law, however, for in
1885 he began his career as a college
professor, taking up the chair of his-
tory and political economy at Bryn
Mawr. From that time onward until
he left the field of collegiate work,
and became governor of New Jersey,
Mr. Wilson did not figure in the prac-
tice of law.

No announcement was made of the
character of practice the new firm
will take up but the presumption is
that it will engage principally in in-
ternational law and colonial work.

The announcement that offices would
be maintained in New York and
Washington was generally taken as
meaning that Mr. Colby probably
would take charge of affairs at New
York and that Mr. Wilson, who will
maintain his home here, would look
after affairs in Washington.

How actively the retiring president
might take part in the firm's prac-
tice, within the limitations of his pre-
sented physical condition is open to wide
speculation. When he said goodbye
to his cabinet members earlier in the
week, he was obliged to use his cane
to get about from the white house to
the executive offices and when the
newspapermen attached to the white
house asked for a farewell audience,
the president declined on the ground
that his voice was too weak.

The president's friends generally
suspected Mr. Wilson's connection
with the new firm would be very
largely that of counsel.

Mr. Wilson was intended to appear in
court was not made clear, although it
was stated at the white house he
would apply for admission to practice
before the supreme court of the United
States.

Probably no announcement of any
nature has surprised Washington
more during recent months.

Much business for international
law firms during the next fifty years
undoubtedly will arise out of the
world war and its aftermath.

The wide extent of Mr. Wilson's
knowledge of international affairs
can only be left to the imagina-
tion. He has a personal store of data
on the peace conference and his pro-
ceedings which is possessed by cer-
tainly no one else in the United States
and it probably is not exceeded in
volume and importance by any Euro-
pean public man.

WOULD COMPEL STATE COUPLES TO MARRY HERE

Bill Making Winona Marriages
Illegal Passes Lower
House

PROPOSED MEASURE APPROVED BY CIRCUIT JUDGE HIGBEE

Majority of Local Divorces Re-
sult Outside Weddings

WITH nine out of every ten applica-
tions for divorce here showing the
ill-fated marriages to have occurred
outside the state, great interest is at-
tached to the Wooten bill which
has passed the Wisconsin assembly
and which, if approved by the senate,
will make marriages of Wisconsin
people outside the state illegal if they
return to Wisconsin to reside.

The proposed bill would make ef-
fective the state's engender law,
the medical provisions of which are easily
evaded by the simple expedient of
journeying out of the state for license
and ceremony.

Circuit Judge E. C. Higbee favors
the proposed law.

"In the passage of the engender law,
requiring medical examination of
applicants applying for marriage licenses,
the state established a public policy.
To be effective, means of evading the
law must be wiped out," he said today.

Circuit Judge Reid of Wausau re-
cently held marriages of Wisconsin
people outside the state to be illegal
if the parties returned to Wisconsin
to reside. The supreme court revers-
ed Judge Reid. The Wooten bill
would clearly define the legislature's
intent.

The passage of the bill will be
welcomed by County Clerk Hubert
Shatts. His office at present being de-
prived of many fifty-cent fees by
couples journeying to Winona to wed.

Circuit Court Clerk Leonard Kloeber
estimates nine of ten divorces start-
ed here are the result of marriages
of Wisconsin couples performed out-
side the state.

The constitutional prohibition of ex-
pose facto laws in Wisconsin legalizes
however, any out-of-the-state
marriages performed before the act
actually becomes a part of the
statutes.

pital facilities for disabled service
men.

The appropriation was contained in
the sundry civil bill but after the
senate had been advised that that
measure would fail, it was decided to
include the hospital from high separate
bill.

TAKE SCHOOL BOARDS OUT OF POLITICS IS ADVICE OF EDUCATORS

Hearing Held on Bill to Divorce Organization from the City Councils

MADISON, Wis.—School boards should be divorced from city councils and removed from politics, the senate committee on education and public affairs was told Wednesday by state educators favoring a bill giving boards the right to administer their own affairs independent of council restrictions.

No action was taken by the committee pending further consideration of the proposed law, which would bring a fundamental change in the school administration in Wisconsin.

The hearing brought before the committee a large number of people prominent in educational circles of the state. They spoke in favor of the proposed views on the measure, while a larger number pointed out objection to the measure to the committee.

Superintendent of Schools Toby, of Wausau, presented the main argument in favor of the measure. Introduced by Senator Peterson, school districts would become independent corporations, capable of suing and being sued, he declared. If the measure is passed by the legislature.

"This is not a revolutionary measure," Mr. Toby said. "There are 5,942 school boards of Wisconsin who are now acting independently of their common councils. What we wish is that the other 50 cities of the state be given the same privileges."

Over 1,000,000 children of the state have been deprived of a fair chance to go to school because common councils have cut school funds and thereby made it impossible to provide educational facilities for them," he said.

Opponents of the measure stressed the fact that school boards, if freed from council restrictions, would be wasteful expenditures would be larger, there would be less responsibility, and taxes would be higher.

The board of education would have the power, under the measure, to fix the school budget up to 2 per cent of the assessed valuation of property. This recommendation would be sent to the common council, which would have to add the board's request to the regular tax and would not be allowed to cut it in any way.

A feature of the bill for teachers elected three times by the board is also provided in the bill. This is inserted to make opposition in a city permanent and attractive to teachers who have proved their worth, it was stated.

E. L. Kelley, city attorney of Manitowish, declared that the measure does not take from the city council its inherent powers. It would permit an additional 5 per cent bond issue for school purposes, he said.

Claims that school boards would be wasteful were said to be invalid because school boards are composed of business men and women who are heavy taxpayers and who can handle funds more efficiently and with greater understanding of school conditions than can the common council. It was pointed out at the hearing.

ORATORY CONTEST

HERE MARCH 10
The oratorical contest this year promises to be one of much interest as a great deal of preparation is being made by Miss Briggs, who is acting as coach. The preliminary contest will be held on the evening of March 10 in the high school auditorium.

Not only the students in the public speaking class but also many students throughout the school will enter this contest, from which one boy and one girl will be chosen to represent La Crosse in the contest with Cornish, Sparta and Virgona. The victor in this district will contest with the victor in another district for the honor of going to Madison to determine the state championship.

The girls in the contest may use a short story or poem, while the boys are to make orations by famous men. Each of the speakers will be allowed about ten minutes in which to give his declamation.

NEW LIBRARY CLUB ORGANIZED BY GIRLS

In response to a request from a number of girls who wish to know more about library methods, a Library Round Table Club has been organized by Miss Dickenson. The membership is limited to twelve but many more applications have been made. The club will meet and give a library program once in every two weeks. Miss Dickenson will give the girls instruction in library methods and they will assist her in the high school library.

WINNERS OF BREAD CONTEST

Mary Duffy, Griselda Hoegenhaus and Corbelle Walker were winners in the bread contest held by Mrs. Holte's Cooking 11 class, which was one of the most interesting features of Friday's exhibition. The judges in the contest were Mrs. Ziegler, Mrs. Salzer and Mrs. Runge, who had a hard time deciding which loaf should receive first honor. Mary Duffy was awarded first prize of \$1.00, Griselda Hoegenhaus, second prize of 75 cents, and Corbelle Walker third prize of 50 cents. The bread was made by the girls without the assistance of anyone and was on display Friday afternoon and evening.

DEPARTMENTAL

The automobile which was shown at the exhibition last week was taken out of the gym during the first and second periods last Monday by the garage and machine shop classes of those periods. One more boy was needed, so Ambrose Liskovec, the nighty, who happened to be in the gym, was asked to help tear down the wooden structure. The boys said he did his share of fighting.

Much has been said in the Type-writing classes about accuracy and the ability to be error-proof. Up to recent date, little has been done about it, but Miss Collins is now working out new ideas to guard against the many errors made in the department. Her plan of having "memory contests" is in full operation and the students' work, as a whole, shows a marked improvement.

A Message to Mothers

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

Genuine Castoria always bears the signature of *Charles H. Fletcher*

Public Debate

THE TEACHERS' BILL
La Crosse, Wis., March 2, 1921.
Editor Tribune and Leader-Press:
Dear Sir: I am enclosing a brief outline of the teachers' retirement fund bill No. 2246. Would you please print it today because so many people are asking us for these facts and the passing is the only way to reach the many. Yours respectfully,
GRACE OGDEN,
(Teacher in the Washburn) Member, Civic Committee.

Brief Analysis of Committee's Retirement Fund Bill No. 2246.

1. System will include all schools (except city schools) in Milwaukee supported by public money.
2. Membership will consist of three classes: (a) All present members of the teachers' retirement fund. (b) All teachers 25 years of age and over not in any of these schools but were members of the teachers' retirement fund. (c) All teachers 25 years of age and over not included in a or b.
3. No teacher under 25 years will be asked to deposit any part of salary.
4. Every teacher over 25 will deposit 5 per cent of salary as long as she teaches.
5. An individual account will be kept with every teacher and her deposits kept strictly for her own use.
6. The state will deposit for the teacher each year a percentage of her salary, ranging from 50 per cent to 100 per cent, according to length of service. The percentage decreases a little as salaries go above \$1,200. The state will also make a deposit each year of \$25 for each teacher over 25 years of age.
7. In fixing the state's deposits, all prior teaching is counted.
8. A teacher may retire any time and at any age. She may then take her own deposits with such interest as the fund has earned, or she may leave them to draw interest until she is 50 years of age. The state's deposits must remain on interest for the teacher in case of disability or death.
9. Upon attaining age 50, sooner in case of disability, she may take whatever annuity her own deposits will ever annuity (if still in the fund) and the interest, if still in the fund, will purchase at actual cost at her age.
10. The teacher has the choice of several kinds of annuities.
11. 12. A teacher completes 25 years in these schools, the state will deposit in her credit, for such service prior to 1921, the same as if the new law had been in force, without asking her to deposit for those years.
12. Present annuitants will receive their annuities without reduction.
13. Members of the present fund

(Class A) will receive approximately the same benefits as provided in the present law.

KILLS WOLF-DOG

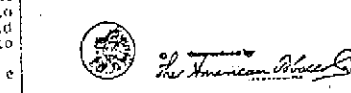

CALEPONTIA, Minn.—John Gilen of Freeburg, near here, recently shot and killed a wolf that was found to possess very strange markings that show it was a cross between a wolf and a dog. The animal weighed over forty-seven pounds; had long gray hair, a white spot on its nose and was reddish-brown on the sides. The ears did not stand upright as do those of wolves, but were lapped over the head like a dog.

A Rare Raisin Pie

—fresh and delicious, waits for you at your grocer's or your bake shop, or you can make one at home according to the recipe below. Serve for dessert tonight.

Filled with plump, tender Sun-Maid Raisins. Baked so the juice forms a luscious sauce. The men folks call it "rare pie," and it is.

For it's baked according to a special recipe, the result of many tests. You've never tasted better pie, if any equally as good. Nutritious, too, for raisins furnish 1560 units of energizing nourishment per pound. Try one now. Every first-class baker has this pie—or you can use the recipe below.

Raisins are rich in iron content; and it is iron in the blood that brings the bloom of youth to women's and children's cheeks.

So raisins are a "beauty food" as well as healthful and delicious.

Make many foods with raisins. Learn what these raisin dainties mean.

SUN-MAID RAISINS

Always cook with Sun-Maid Raisins, the finest raisins grown. Packed in California in an immaculate plant—clean, sweet, wholesome American raisins—the kind you know are good.

Made from sweet, tender, juicy California table grapes, noted for their fragile skins.

Taste their plump, tender meat and

you'll always want Sun-Maid Brand.

Three varieties: Sun-Maid Seeded (seeds removed); Sun-Maid Seedless (grown without seeds); Sun-Maid Clusters (on the stem). All dealers. Insist upon the Sun-Maid Brand.

The Recipe

Cut This Out and Keep It

- 2 cups Sun-Maid Raisins
- 1½ cups boiling water
- 1 cup sugar
- 4 tablespoons cornstarch
- Juice 2 lemons
- 1 tablespoon grated lemon rind
- Juice 1 orange
- 1 tablespoon grated orange rind
- 1 cup chopped walnuts

Cook raisins in boiling water for five minutes; pour into sugar and cornstarch, which have been mixed. Cook until thick; remove from fire and add other ingredients. Bake between two crusts. Walnuts may be omitted if desired.

TAX BILL HEARINGS SCHEDULED FOR THE LAST OF THE MONTH

Normal and University Budgets to be Fixed Before Tax Increase Bills Come Up

FOUR MEASURES TO BE CONSIDERED AT HEARING

Two of Measures Have Support of the Administration

BY FRANK L. HOLMES
MADISON, Wis.—The climax of the legislative session will be reached the final week of March when the legislature considers all bills which have been introduced for increasing income tax rates in Wisconsin. The hearing has been set for March 24th.

From every section of the state letters are coming to members of the legislature asking for information on the income tax bill. At the hearing three weeks from today every citizen in the state will have some business representative here to give views on the measure. Many of the bills have been distributed through commercial organizations. The manufacturers, the clothing, and other business interests will have representatives at the hearing.

In the meantime the joint finance committee has announced that it will consider the normal schools and university bills so that the legislature may know exactly what the large appropriations are before the tax measures are taken up. The normal school bills will be heard next week and university bills the week following.

After these come the big tax measures. There are four important tax bills pending before the legislature. Two of these measures, the Dahn and Severson bills are favored by administration leaders. The Dahn bill provides for a revision of present income tax rates. These rates have not been revised since the law was passed in 1917. This bill increases the exemptions to \$2,000 a year for married men and \$1,200 a year for unmarried men. It provides for the repeal of the personal property offset.

The Severson bill is a surtax measure. It provides for graduated surtax on incomes above \$5,000 and follows closely the provisions of the income tax bill under which some of the soldier bonus taxes were raised. The Severson bill is estimated to produce approximately \$6,000,000 annually. No personal property offset can be used against this tax. Stock dividends and bank stock are taxed.

OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of this Hamburg tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoonful at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

25 MILLION DOLLAR ELECTRICAL PLANT PLANNED IN CHICAGO

CHICAGO, Ill.—Construction of an electrical plant to cost ultimately \$25,000,000 is about to be launched by the Public Service company of Northern Illinois. A tract of thirty acres just north of Waukegan, Ill., will be the site of the plant, which will have an ultimate capacity of 200,000 kilowatts and will be one of the chain

connecting public service electrical companies of St. Paul and Minneapolis, St. Louis, Chicago, and Louisville to the "electric belt" of the Mississippi valley.

There are but three missing links. One of seventy-eight miles between La Crosse and De S Moines, Wis., to Harvard, Illinois, and twelve miles between Chicago and Joliet, Ill. Another plant at an estimated cost of \$7,500,000, is to be started soon at the Calumet river and 110th street south, to furnish some sixty thousand

kilowatts to Chicago. This is to be built by the Commonwealth Edison company of Chicago.

TIME TO RE-ROOF

IT'S a comfortable feeling during these days of blustery weather to know that your roof will withstand the battering of the elements. The fiercest March gale cannot tear loose a Nelson Roof. If your roof is leaky and the shingles are loose, the time to re-roof is now before any damage is done. If you wait, it may mean heavy repair bills not only on the roof but inside where water may have crept through and stained up the ceilings.

A new roof, like a new bonnet, greatly enhances the charm of what lies under it. A Nelson Roof is a roof of lasting beauty. There is a Nelson Roof for every type of building. Your lumber dealer will be glad to go over your roofing problems with you and show you how Nelson Roofs meet every requirement. Write us for samples and the illustrated booklet, "The Proof of a Roof" containing an interesting story of roofing progress.

An Ancient and Honored Tree
What is said to be the oldest tree in Europe is growing at Somma, Lombardy, a small place about 20 miles from Milan. It is a cypress and is said to be 1,000 years old. Its girth is 18 feet and its shadow is 60 feet in diameter. When Napoleon was building the road from St. Raphael to Milan, he ordered that the tree be moved around the tree so that the latter should not be destroyed.

DROP IN PRICES OF MILK REPORTED IN MONTH OF FEBRUARY

Milk Being Sold to Consumers at Nine Cents in Several Wisconsin Cities

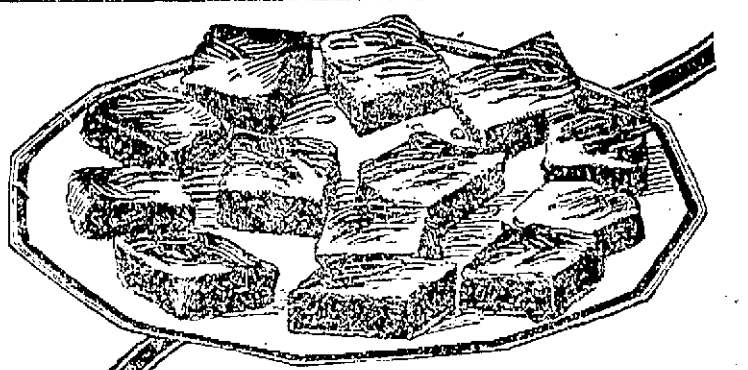

MADISON, Wis.—The marketing division says prices of milk for February. There has been no decided change in city milk prices in the state. There were some noticeable changes in some of the cities but the state average prices changed but little, this change being a small drop in the price paid to the farmer for milk and in the price paid by the consumer. The change in Ashland and Chippewa Falls was most noticeable where the price to the consumer dropped two cents per quart. The average price paid to farmers in January in the same cities reporting for that month and February was \$2.63 per hundred pounds while the February average was \$2.58 cwt. The average price per quart to consumers dropped four-tenths of a cent. The following table gives the prices to producers, stores and consumers in some of the important cities of the state.

	Price to Producer	Price to Store	Price to Consumer

FLORAL FOLDEROL
The rose of Jerico has been named the Mary's rose from the tradition that one of these flowers sprang up whenever Joseph and Mary halted in their flight into Egypt. In France, Germany, Greece, and in parts of

Wales and Scotland it is still the hold to possess a miraculous character to hang up bunches of St. Peter. Good fortune has for centuries John's weed over or near the doors past been believed to follow the finder and windows as a bar to the entry of a piece of four-leaved clover, evil spirits; and in Japan the same idea is followed with other herbs. Peacocks abound in Hainan.

FLORENCE SHANNON FUNERAL HELD AT VIROQUA TUESDAY

VIROQUA, Wis.—The funeral of Miss Florence Shannon, daughter of Mr. and Mrs. Mike Shannon, of Revere, was held on Tuesday afternoon at 2 o'clock in the St. Joseph's church. She had been in a Madison hospital. She passed away on Saturday. Miss Shannon had attended the Viroqua High school. Mr. John Dregne, a well known farmer of this community, passed away at his home in this city on Monday after a lingering illness. Surviving is the widow and several children. Funeral services were held on Wednesday afternoon.

NORMAL TO DEBATE AGAINST OSHKOSH ON THE ESCH ACT

Negative Team Goes to Stevens Point to Argue at the Same Time

The question of whether the Esch-Cummings law should or should not be removed from the statute books of the United States is the subject for the debate between La Crosse and Oshkosh at the Normal school tonight. The event is free for all and those who are in any way interested in this subject will do well to be present.

The La Crosse team takes the affirmative against Oshkosh, while the negative team makes the trip to Stevens Point to argue at the same time. The members of the affirmative team are Walter Bruns, Vivian Lewis and Sylvester Hemmelen. Those of the negative team are Palmer Henderson, Grville Olson, Russell Warfield and Wilfred Martin, alternative.

A special program of music will be furnished while waiting the judges' decision to be rendered.

"NIGHTIE NIGHT" HAS LONG RUN IN BIG CITIES

After six laughable months at the Princess theater, New York, during which period a goodly portion of the metropolis' fun-seeking playgoers laughed themselves into a state of exhaustion, the will be seen at the La Crosse theater two nights, Tuesday and Wednesday, March 8 and 9, and the management of Adolph Klauber, the clever authors, Martha Stanley and Adelaide Matthews, adding on the alluring title of "Nightie Night" to the most hilarious and exciting complications took place at night, and that one of the young women of the cast scampers to unseemly rooms, but visible perches and ladders for two acts dressed only in fascinating night garment or nightie. However, in spite of this act the comedy is clean and wholesome in dialogue and situation, and moreover the players may seem to each other to be involved in compromising situations, the audience are made aware from the first that the apparently glibly are supremely innocent, which but adds to the general amusement.

TODAY'S BEAUTY TALK

You can enjoy a delightful shampoo with very little effort and for a very small cost if you get from your druggist a package of camthrox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampooing liquid—enough so it is easy to apply to all the hair. Instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt. After rinsing, the hair dries quickly with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.

MARY PICKFORD'S "POLLYANNA" AT THE RIVOLI TONIGHT

The game of being "blind" that game was played last evening in "Pollyanna" at Rivoli Theater with Mary Pickford as the "blind" girl. It's a game of sunshine, a game that can be played by anybody, anywhere, and anytime and what is better still, there is no limit to the number of players in the game. Anyone can get into the game. So said Miss Pickford in her production last evening and she is the one who really knows, for it was "Pollyanna" herself who organized the game and made the rules to match. She it was who demonstrated that the "blind game" is the only game worth while as you've got to smile to win.

This "blind game" as played by Mary Pickford was extremely entertaining. "Pollyanna" knew how to play it and always won. Of course, she was only a little orphan girl, a daughter of poor missionary workers, but what of that? She was happy anywhere. Nor did the fact that her blind aunt, who did not want to be bothered with "Pollyanna," make any difference.

OUCH! MY BACK! RUB LUMBAGO PAIN AWAY

Rub Backache away with small trial bottle of old "St. Jacobs Oil"

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints.

CARMEL MYERS COMING IN NEW SCREEN ROLE

Carmel Myers has a new type of part for her in "Beautifully Trimmed," the feature that will be shown at the Riviera Theater today.

It is almost a "book part." In fact she is a member of an unscrupulous "cassidy" gang of swindlers who prey on the credulous newly-rich with their masterpieces and worthless stocks.

She is a girl who maintains her position in society when her father fails, and who determines to keep that position at the expense of the smuggler who caused her father's ruin. By a clever arrangement she disposes of the counterfeit "great masters" in a plausible way, and aids in rounding up dopes for the other activities of the group.

Irving Cummings is seen as the handsome and talented painter who is expert at imitating the brush work of the masters of past centuries. He is the clean-minded, clean-limbed American who has dared much adversity and who returns home ready to fight his business battles in the same aboveboard way that he fought the Boche. George B. Williams is the unscrupulous broker. Alf Fisher and Victory Bateman play a bespectacled, newly-rich husband and his dominating wife.

BUSINESS INTERESTS OF STATE IN ATTACK ON MARKETING BILLS

Joint Committee No Nearer
Solution of Problem After
Extended Hearing

TWO BILLS BEFORE THE COMMITTEE FOR ACTION

Reis Presents Administration
Plan; Freehoff Bill also Up

MADISON, Wis.—Four hours of argument, supporting and condemning the two marketing bills before the assembly committee on agriculture and the senate state affairs committee Wednesday afternoon, brought the marketing problem only slightly nearer solution. No committee action was taken on the measures which were threshed out during this extended hearing.

The administration bill drafted by Alvin G. Reis, attorney for the present marketing department, bore the brunt of attack from business organizations, but it was scarcely more flayed than the proposal of Assemblyman Freehoff to provide for coordination of the work of the division of markets and the department of agriculture by abolishing the office of the dairy and food commissioner.

Mr. Reis presented the marketing bill to the committee as a measure drafted with teeth in it to give the proposed department of marketing ample powers to deal with unfair practices in industry as well as with marketing problems.

There was every indication that the committee would withhold its decision on the bills until further hearing could be held and many of the differences that arose threshed out. Outside of taxation, marketing is declared to be the big problem before the present legislature.

Consideration of the Freehoff bill which would subordinate the dairy and food commissioner to the department of agriculture, brought in a concerted attack from the present commissioner and the dairy interests of the state.

Assemblyman W. A. Freehoff, of Waukesha, explained his proposal as an attempt to follow out Governor Lehman's suggestion for consolidation of commissions and boards with overlapping jurisdictions. He said that the bill in no way conflicted with the administration marketing bill to set up a separate division of markets. His plan brought down the wrath

of J. Q. Emery, present dairy and food commissioner, who under the Freehoff measure would be made a subordinate official under the commissioner of agriculture. Mr. Emery declared that the proposed change would work to the detriment of the dairy industry, would result in inefficiency of management, would be expensive, create overlapping of functions, and would create a new department, the marketing and trade commission.

SCHAEFER BEATS HOREMANS IN CUE CAME IN GOTHAM

NEW YORK.—Edmond Horemans, Belgian billiard champion, Wednesday night retained his lead over Jake Schaefer, 1,600 to 1,320, in their 18-2 ball game made \$26 though the young player made 826 to the Belgian's 800. Schaefer's victory in the evening, 439 to 400, was the first defeat for Horemans since he came to this country.

An uphill battle enabled Horemans to win at the afternoon, 460 to 387, after Schaefer opened with a run of 188. With Schaefer leading by 200 points, Horemans ran off 223. The Belgian averaged 66 4-6 and Schaefer 64 3-6.

In the evening Schaefer averaged 43 9-10 to Horemans' even 40, with respective high runs of 198 and 170.

BIG LIQUOR SUPPLY NOW AT SUPERIOR UNDER CLOSE GUARD

Agents for Months Held for
Court up State

"Five hundred gallons of liquor but not one drop to wet a whistle." This was the remark made by J. Allen Simpson, group chief of the Federal prohibition agents for the western district of Wisconsin, who supervised the unloading of this amount of liquor at Superior.

Plain white male, brilliant dago red, colored moonshine, white moonshine and whiskey of various brands, contained in 86 pieces of express arrived in that city from La Crosse. No time was lost by the federal agents in transporting the liquor from the railroad depot to a vault in the federal building.

What Will the Harvest Be?

The value of clean seed of a productive strain isn't apparent when you are planting it—but harvest time will tell the whole story. A. L. Stone, Secretary-Treasurer of the Association of Official Seed Analysts, explains why good weedless seed pays best, in next week's issue of

The COUNTRY GENTLEMAN

Now is the time to give thought to the selection of seed on which you plan to spend a whole spring and summer of hard work and on which you rely for a whole year's profit. You can't be too careful: the right start counts for much.

Out in Nebraska there's a county that has built itself a nation-wide reputation by specializing in better seed. Its grains command a premium on every market; it is not only earning unusual profits for its farm populace, it is doing a distinct service to agriculture as a business. THE COUNTRY GENTLEMAN is quick to point out the practices that pay. That is one reason why it is gladly welcomed in 800,000 farm homes. It is more than "just a farm paper"—it is a friendly counselor, a wholesome force that makes the farm business more prosperous and the farm home happier. If you send me \$1.00 today it will make the first of 52 weekly visits to you next Thursday.

with the spirits contained in the 86 pieces of express, said Mr. Simpson. Each package contains several small packages of liquor and each package is a sample of evidence, which will be used against liquor law violators, the officials state.

There is enough liquor there to give nearly every one in Superior a "quackage," remarked an eye witness to the unloading performance, this morning.

Hundreds of gallons of liquor were destroyed by the federal men following the closing of the term of federal court at La Crosse last week. Upon completion of each case the evidence confiscated by the federal agents is destroyed. A number of the samples which arrived at Superior contain evidence in cases which were tried before Judge Landis at La Crosse but which have been appealed. The evidence will be held pending new trials.

Precautions are taken by the federal men to guard against theft of the liquor evidence. The wet goods are stored in vaults in the federal building, away from prying eyes and fingers, say the agents.

Recently liquor stored by federal agents in a private warehouse in Madison was stolen. But none of this liquor was wanted longer as evidence, according to Mr. Simpson.

Save the Birds to Save the Trees

With the idea of saving the beautiful oak trees on the campus of the Wesleyan college, a number of the students have organized a bird club, which will, in every way possible, endeavor to encourage the presence of birds on the campus. It is thought that the pest of destructive insects will be held in check in this manner.

HARPER IS COMING TO SPEAK HERE AT COMMUNITY MEET

Interesting Talk on Work of
State Board of Health to
be Given Saturday

At the meeting of the La Crosse County Community Council to be held Saturday at 1 o'clock at the Masonic Temple Dr. C. A. Harper, state health officer, will be the speaker. Dr. Harper's subject will be: "The State Board of Health, Its Plans and Policies." Since the state board of health is charged, under the statutes, with the general supervision throughout the state of all matters affecting the health and lives of all of the citizens of the state, this meeting should be of interest to every man and woman in the city of La Crosse.

How many citizens in La Crosse know something about the activities and various divisions which compose this important branch of our state government?

Saturday's noon luncheon will afford this opportunity to you to learn something about this important subject. Telephone reservations to Mrs. E. G. Perkins, Phone No. 4101.

Cleansing Clothes Without Wear

The creator of the 1900 Cataract Washer probably conceived a thousand ways clothes could be put into a tub and mechanically beaten, turned and so twisted in a soapy water that they would emerge cleansed. But he wanted a washer that extracts dirt harmlessly.

The 1900 Cataract Does Exactly This.

There is no rough treatment of the clothes. They lie in the tub, which rocks to and fro, swirling soapy water through them—loosening dirt—washing it away bit by bit. It is a gentler treatment of clothes than the human hand can give—and still it washes clothes clean.

THERE'S NO MACHINERY WITHIN THE TUB

to tear or rub your clothes. In the 1900 Cataract tremendous water power makes possible clean clothes without wear. The 1900 Cataract does not employ cylinders, cups or shafts in its washing process. It completely reverses the action of the old-fashioned machine. Instead of dragging and pulling the clothes through the water, it forces the hot, sudsy water through the meshes of the clothing. This accounts for the fact that it will wash your damiest garments and your finest laces without wear. It will cleanse your heaviest blankets with equal facility.
